WORK EXPERIENCE

SOFTWARE DEVELOPMENT EXPERIENCE

Full-Stack Developer — Independent Projects

Business / POS Management Application

- Built and deployed a business application using React, TypeScript, Python and FastAPI.
- Connected the frontend to REST APIs and PostgreSQL.
- Investigated application, API and authentication issues.
- Diagnosed 401, 400, 405 and CORS errors during development and deployment.
- Investigated database and backend errors using logs and testing.
- Troubleshoot deployment issues using Vercel and Render.
- Worked with JWT authentication, Supabase, Git/GitHub and third-party APIs.
- Built features for sales, inventory, employees, expenses, notifications and AI assistance.

Medical Assistant

Navy Reference Hospital, Calabar, Nigeria | Apr 2024 – Jul 2026

- Supported staff with daily system-related, administrative, and operational tasks.
- Used the hospital's electronic record system to update and maintain accurate records.
- Entered, reviewed, and corrected information to maintain data accuracy and completeness.
- Investigated and followed up on issues requiring additional support or technical attention.
- Maintained inventory information and updated stock records using spreadsheets.
- Organized electronic and operational information for reporting and audits.
- Managed multiple requests and priorities in a busy working environment while maintaining accuracy.
- Handled confidential information responsibly and followed established procedures.

Science Laboratory Assistant — NYSC

Federal College of Education (Special), Oyo State, Nigeria | Nov 2021 – Nov 2022

- Communicated with students and staff and responded to questions and requests.
- Provided one-to-one assistance and followed up when further support was needed.
- Supported online and in-person activities and helped users with available tools.
- Organized schedules, learning materials and daily activities.
- Worked with staff to resolve day-to-day issues and keep activities running smoothly.
- Received a commendation for dedication and innovation during service.
